The Greenhouse Gas Protocol

Scope 3 Accounting and Reporting Standard

Comment Template

We are providing this template to streamline public comment submissions. To use this template, please follow the instructions below:

- This Scope 3 draft is open for stakeholder comment from November 11, 2009 through December 21, 2009.
- To provide written comments, please use the comment template provided, instead of sending comments in a separate file or e-mail, in order to streamline the comment process.
- When using the comment template, please organize comments by chapter/section and reference page numbers and line numbers.
- If you have questions during the public comment process, please email Holly Lahd at hlahd@wri.org.
- Submit comments as an attached MS Word file by email to Holly Lahd at hlahd@wri.org no later than **Monday, December 21st, 2009**. We appreciate any effort to submit written comments before the deadline.

Chapter/Section	Comments
The outline and overall structure of the document	<ul style="list-style-type: none"> • It should be made clear that if adding product assessment from all products of an organization the result will be (should be) a scope 3 assessment of the organization.
Part 1	
5. Setting the Boundary	<ul style="list-style-type: none"> • It remains unexplained why you should throw away 20% of your collected data (the anticipated emissions) and only report the 80%. To achieve comparability, it would be best if 100% were reported, alternatively that it is required to throw away the same amount (e.g. 20%) so that it is clear that the reported amount is exactly 80% of the anticipated amount. The user of the information can then multiply with 1.25 to get the original result of the assessment.
